CAREER DEVELOPMENT PROGRAMS

BRIEF

25X1A

1. Regulation [REDACTED] "The Junior Career Development Program"

25X1A

was prepared to replace the two notices [REDACTED] which expired on 1 December 1955. The draft has been reviewed by the General Counsel and the Regulations Control Staff. The Career Development Committee recommends its adoption.

2. No changes in the Junior Career Development Program as such are contemplated by publication of this Regulation. It does, however, give recognition to the fact that the Committee as originally organized with the Head of the Career Service concerned as the third member for each individual consideration of the Committee - was not operable. Instead, there will be two additional permanent members, one each appointed by the Deputy Director (Intelligence) and the Deputy Director (Plans). Junior Career Development positions and Career Development positions are henceforth treated as one block of positions on the T/O. This will eliminate confusion now extant and improve administrative and reporting techniques.

3. Also attached is a status report on both Junior and Senior Career Development Programs.
